

NAWFAL IRFAN RAMADHAN

SOFTWARE ENGINEER

Yogyakarta, Indonesia | nawfalirfan005@gmail.com | www.nawfal.site | linkedin.com/in/nawfal-irfan | github.com/xfalzz

SUMMARY

Information Systems student focused on Software Engineering, Web Development, and AI-driven applications. Experienced in building modern fullstack web applications using Next.js, React, TypeScript, and Firebase with strong interest in scalable systems and product-focused development.

PROFESSIONAL EXPERIENCE

Internship, DIY Educational Communication Technology Center Mar 2024 - Aug 2024

- Assisted administrative processes and helped streamline internal operations using digital tools.
- Developed SAC-based educational applications to support multimedia learning initiatives.
- Actively participated in broadcasting and educational content production, contributing to a wider dissemination of knowledge and resources.

PROJECTS

macOS Sequoia Cloning

- Engineered a macOS-inspired web environment with draggable windows, multitasking system, and interactive taskbar using React and TypeScript.
- Replicated modern OS visual effects including glassmorphism, smooth animations, and dynamic UI interactions with optimized frontend performance.

KURA Game Discovery Platform

- Developed a scalable game discovery platform with responsive filtering, trending systems, and dynamic content exploration.
- Built using Next.js and TypeScript with reusable components and optimized frontend rendering.

QRQuick

- Built QR code generator platform with responsive UI and dynamic QR rendering.
- Developed using Next.js, TypeScript, and Tailwind CSS.

SKILLS

React, Next.js, TypeScript, JavaScript, Tailwind CSS, Node.js, Supabase, Firebase, MySQL, PostgreSQL, Git, GitHub, Cloudflare, AWS Cloud, Frontend Architecture, Component-Based Architecture, API Integration, Authentication Systems, SSR/CSR Rendering

EDUCATION

Bachelor of Science, Information Systems 2025 - Now

Universitas Bina Sarana Informatika

- Relevant coursework in Software Engineering, Database Management, Web Application Development, and System Analysis & Design.

ADDITIONAL INFORMATION

- Languages:** Indonesia, English.
- Certifications:** Microsoft Azure AI Engineer Associate, AWS Cloud & Generative AI Fundamentals, Microsoft Fabric & Azure AI Applications, Basic Data Analytics Certification.
